

CASE STUDY

Mary is usually happy but she has recently become withdrawn and has a reduced appetite. She has also become less tolerant to toothbrushing.

What do you think could be the possible oral cause/s of this change in behaviour and how would you manage this?

CASE STUDY

You have noticed that Ben is leaving food in his mouth.

What do you think could be the reason/s for this and how would you manage this?

CASE STUDY

Alice usually brushes her own teeth with guidance. You notice that there is blood in the sink when Alice spits out.

What do you think is the cause of this and how would you manage it?
